### EULAC Museums participation (notice to use in social media and web platform):

From January 31 to February 2, the Memory Meeting was held, an activity organized by the Neltume Museum and Memory Cultural Center, together with the Neltume Memory Committee. During this meeting the expanded community of the Neltume Museum participated; family and friends of victims of the dictatorship, survivors, neighbors and neighbors, academy representatives, etc.

Among several commemorative activities, destacó el recorrido por los hitos de la Ruta de la Memoria, representing places where, in the context of dictatorship, people from the community were killed, the Conversatory "Contrasts and unification of the Social Protest from different territories", and the visit to Camp 83 of the Toki Lautaro Guerrilla Detachment.

Also -as it has usually happened during these commemorations- was held a ceremony of delivery and reception of a set of personal objects belonging to one of the guerrilla

participants killed in dictatorship, whose family decided to donate to the Neltume Museum and Memory Cultural Center. This validates the hypothesis developed in the framework of the Eulac project, respect to the fact that the social function in this space is expressed mainly through a community that participates both in the constant donation of objects that nourish the collection, as well as stories that allow the script to be updated.

The participation of the Eulac team, represented by its principal investigator and three former thesis researchers, concentrated on general support in activities; registration of a dialogue held between the participants and the Director of the Museum, Angélica Navarrete about the experience in working with community museums; and the moderation of the conversatory by Karin Weil.

Del 31 de enero al 2 de febrero, se realizó el Encuentro de Memoria, actividad organizada por el Centro Cultural Museo y Memoria de Neltume, junto al Comité Memoria Neltume. Durante este encuentro participó la comunidad ampliada del Museo de Neltume; familiares y amistades de víctimas de la dictadura, sobrevivientes, vecinas y vecinos, representantes de la academia, etc.

Entre varias actividades conmemorativas, destacó el recorrido por los hitos de la Ruta de la Memoria, que representan lugares donde en contexto de dictadura fueron asesinadas personas de la comunidad, el Conversatorio “Contrastes y unificación de la Protesta Social desde distintos territorios”, y la visita al Campamento 83 del Destacamento Guerrillero Toki Lautaro.

También -como ha solidado ocurrir durante estas conmemoraciones- se realizó una ceremonia de entrega y recepción de un conjunto de objetos personales pertenecientes a uno de los participantes de la guerrilla asesinado en dictadura, cuya familia decidió donar al Centro Cultural Museo y Memoria de Neltume. Lo anterior valida la hipótesis desarrollada en el marco del proyecto Eulac, respecto a que la función social se expresa en este espacio, principalmente a través de una comunidad que se hace partícipe tanto en la donación constante de objetos que nutren la colección, como de relatos o historias que permiten actualizar el guión.

La participación del equipo Eulac, representado por su investigadora principal y tres ex tesistas, se concentró en apoyo general en las actividades; registro de un diálogo sostenido entre las participantes y la Directora del Museo, Angélica Navarrete acerca de la experiencia en el trabajo con museos comunitarios; y la moderación del conversatorio a cargo de Karin Weil.
